Qualifications:

Associate of the Institute of Chartered Accountants in England & Wales (ACA)

Key Experience:

Julie is a Chartered Accountant, qualifying in 1988 with Grant Thornton. Throughout her training and post qualification she has been interested in understanding the nature of the businesses and the people behind them.

Her experience is varied, including writing up books of prime entry (in ink into leather bound ledgers!); preparing accounts, working on personal and corporate tax cases and auditing; managing multi-location audits; carrying out due diligence prior to listing on the Stock Exchange; preparation of analysis following fraud and post-acquisition audits.

Her interest in business led her in 1992 to join Ingram Forrest, a corporate finance firm, where she gained experience in the insurance industry, dealing with, inter alia, personal injury claims and loss of profits.

Since joining Adjusting Solutions, Julie has worked on assignments including mortgage fraud, product liability in the aquaculture industry, business interruption for a chemical explosion and quantum issues on a hi-tech electronic industry financial loss claim overseas.
